7 Mar 07

Mr. Christopher H. Horwege
377 SVS/SVF
1551 First Street Building 20350
Kirtland AFB, NM 87117

Mr. Harris Goodwin
P.O. Box 3523
Albuquerque, NM 87190-3523

Dear Mr. Goodwin

This is to notify you and the Amateur Radio Club that Kirtland AFB has made a decision to lease out Building 509 as part of the current Enhanced Use Lease (EUL) project. The government expects to sign the lease by September 30, 2007.

We encourage you to try and deal with the successful EUL lessee; however, the government will not get involved with those negotiations. Another option for consideration is that if you can prove that the Amateur Radio Club enhances Kirtland AFB's mission, we may be able to find an alternate location for the club on base. All equipment, including the tower, would have to be relocated at the club's expense.

In the event that you are unable to negotiate a sublease with the EUL lessee, all equipment, including the tower, must be removed from Building 509 by September 30, 2007. Any equipment left in or around the building will belong to the lessee at signing.

Sincerely

A handwritten signature in black ink, appearing to read "C. Horwege".

CHRISTOPHER H. HORWEGE, YC-02
Resource Management Flight Chief
